

## Care Partner Program Guide

The Care Partner program training experience is designed to assist family and caregivers to gain the skills and confidence needed to safely take care of a loved one. Hospital staff will support and teach the caregiver in all aspects of care, based on each patient's/family's specific needs. Please let us know if you have concerns or questions that are not being addressed.

During the care partner training sessions, each caregiver will have the opportunity to participate in physical therapy, occupational therapy, speech therapy and nursing care.

### How to Begin

**First:** Sign in at reception desk inside the front doors and receive your VISITOR badge. This must be worn at all times for identification purposes.

**Second:** Meet with the therapists in your loved ones room, arrive approximately 15 minutes prior to therapy time. Sometimes the times are changed due to unforeseen circumstance, we ask that you please be flexible.

**Third:** Keep the learning checklist with you throughout the day and mark off skills that you have practiced during the session, when finished give checklist to therapist and/or nurse. Please date these entries at the top of the page.

**Fourth:** Please sign out at reception desk at the completion of each session.
